

Introduction

Participant Name: Anjana Rajendran (MS/ECR5-XC)

Manager Name : Saghai Denis S (MS/ECR-XC)

Role: Program Manager

Function/Department: IVI SW Development/ ECR-XC

I own the end-to-end delivery and success of an infotainment program across multiple projects, components, and stakeholders. I am accountable not only for delivery (scope, cost, schedule, quality) but also for business outcomes, OEM satisfaction, and long-term sustainability of the program.

Leader in Me – Leadership Reflection and Work-Life Application

Empowering personal growth through
effective workplace leadership

Purpose of Reflection

Leadership Starts Within

Self-awareness and personal accountability form the foundation of effective leadership before influencing others.

Applying Leadership Learnings

Leadership principles are applied daily through behavior, decision-making, and team interactions in work environments.

Leadership as Influence

In my organization structure, leadership is about influence, trust, and consistency rather than authority.

Ongoing Leadership Journey

Leadership involves continuous learning, adaptation, and purposeful application within professional contexts.

Leading Myself

Self-Awareness Importance

Effective leadership begins with understanding personal strengths and emotional triggers through self-awareness.

Managing Mindset and Energy

Leaders must control their mindset, reactions, and energy, especially under pressure for better decision-making.

Building Emotional Intelligence

Developing emotional intelligence and resilience helps leaders respond thoughtfully and maintain composure during conflicts.

Continuous Personal Growth

Consistent reflection, learning from feedback, and investing in personal development builds trust and credibility.

Leading Others

Building Psychological Safety

High-performing teams thrive when members feel respected, heard, and empowered to contribute openly without fear.

Adaptive Leadership Styles

Effective leaders adjust their approach based on team needs, individual maturity, and situational context.

Open Communication & Feedback

Active listening and constructive feedback are essential for healthy collaboration and team success.

Fostering Autonomy and Accountability

Leaders empower team members to take ownership, improving performance and motivation.

Leading the Business

Clarity and Purpose

Effective leaders provide clarity by aligning teams with shared objectives and connecting work to organizational goals.

Balancing Priorities

Leaders balance short-term delivery pressures with long-term sustainability to ensure consistent value delivery.

Removing Obstacles

Leaders play a critical role in removing obstacles, managing risks, and ensuring effective resource use.

Strategic Mindset

Maintaining a strategic mindset enables leaders to guide teams through change and complexity effectively.

Application of Learnings – Real Work Scenario

Situation in Project

Cross-location Collaboration

Multiple teams (JP, IN, VN) across regions worked on interconnected components but faced coordination challenges and communication gaps.

Role Clarity Issues

Unclear roles and decision ownership led to dependency conflicts and heated arguments in team

Leadership Intervention

Leadership was needed to restore alignment, accountability, and trust while maintaining delivery commitments.

Opportunity for Learning

The situation provided a chance to apply leadership learnings in a complex, dynamic environment.

Action Taken

Clarified Roles and Responsibilities

Discussed with the GCT and explained necessity to define RASIC

Defined roles and decision rights across teams to reduce ambiguity and increase ownership.

Transparent Communication

Established regular syncs and clear escalation paths to ensure open and effective communication.

- Daily de-brief sessions
- Recording of meetings to support detailed MoM

Trust-Building and Empowerment

Practiced active listening, acknowledged challenges, and empowered decision-making within teams.

- Made Bosch JP as partner in topics

Constructive Feedback and Accountability

Shared solution-focused feedback to PD and modeled calmness and accountability under pressure.

Outcome

Enhanced Team Collaboration

Applying leadership principles improved team collaboration and fostered ownership of commitments. India and Japan works united.

Increased Delivery Predictability

Teams achieved more reliable milestone execution through consistent leadership practices and accountability. Achieved the first SOP delivery amidst all uncertainty,

Improved Communication and Trust

Open communication and trust reduced friction and accelerated problem-solving among team members.

Elevated Morale and Stakeholder Confidence

Empowered individuals and transparency increased team morale and stakeholder confidence.

Personal Leadership Reflection

Key Takeaways

Leadership Beyond Titles

Leadership is defined by behavior and mindset, not by formal titles or authority.

Self-Leadership Foundation

Leading oneself builds the essential foundation for effectively leading others and the organization.

Consistency in Challenges

Applying leadership principles consistently, especially in challenges, strengthens credibility and impact.

Continuous Reflection and Adaptability

Ongoing self-reflection, adaptability, and deliberate action lead to stronger teams and sustainable results.
